

Bios

Benny Danny: "I've always been a photography lover, ever since I was very young. But only in the beginning of 2005, when I've purchased my first camera, I started to increase my love for photography. I've started doing conceptual photography and then "jumped" for landscapes, portraits and wedding photography.

Recently, after learning more the technique by reading and learning with expert photographers, photography started to be a part of my life, instead of only a hobby."

Martina Kofol's artwork can be found at:

Steve Modzelewski: I'm 24 was born in Modesto Ca and raised in Moreno Valley CA single parent house hold no brothers or sisters started cooking in HS and then started taking pictures of the food, that started me into photography and the passion I had grew into more of an obsession. My first camera was an HP I got for high school graduation from there I went to fujifilm and then my current camera a nikon D-80. Since then I have taken a few classes but am mostly self taught and still self teaching, everyday is a new learning experience. I worked @ ritz camera for 3 years and that helped me get a feel for what kinda cameras I like. Right now I'm just trying to build everything bigger so hopefully someday I can make my living from this.
